

Environmental Policy Statement 2020-21

Duffy Group Ltd is committed to reducing the harmful effect of its activities on the environment. To this end we are committed to:

- Reducing waste levels and actively recycling waste materials for re-use
- Carefully monitoring the level of waste and scrap materials in accordance with our QA system
- Making sure energy use is monitored through a programme of improvement to ensure maximum efficiency
- Considering where materials are sourced in relation to their end use and ensuring we have successfully implemented BREEAM schemes on major projects
- Monitoring fuel use and maintaining plant to enable fuel efficiency
- Training employees and raising awareness with procedures and responsibilities
- Ensuring activities are carried out with minimal impact on local communities and not creating a nuisance to our neighbours
- Carefully vetting our suppliers to ensure their commitment and standards are equal to ours
- Ensure our policy meets the current legislation and industry best practices
- We are equally committed to seeking continuous improvements to further reduce our environmental impacts through ongoing review of our processes and by objective target setting. We strive to identify solutions to environmental problems by adopting best practice and sound principles within our operating domain and in the wider community.
- We constantly strive to prevent pollution, continuously monitor our activities and policies.
